ALPINE COASTERS & ADVENTURE

ALPINE COASTERS & ADVENTURE

Adventure Rope Courses

Modular rope courses for parks, forests and resorts.

OVERVIEW

Adventure rope courses turn an outdoor site — a park, a woodland, a resort — into an activity destination for families and groups.

Courses are built as modules of varying difficulty so children and adults can climb side by side; layout, height and number of elements are planned around the site and its trees or supports.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.

TECHNICAL SPECIFICATIONS

Values are for the standard configuration and may vary with options and site conditions. Detailed layout drawings, foundation loads and electrical requirements are provided with the quotation.
