OVERVIEW

The Samba Balloon is a family ride: balloon-shaped gondolas turn on a rotating platform, with the riders spinning each gondola themselves.

Bright colours and a full lighting package make it a focal point of the family zone; capacity, colours and theming per project.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.

TECHNICAL SPECIFICATIONS

Footprint	≈ 64 m ²
Length	8 m
Width	8 m
Height	5.5 m
Seats	32
Theoretical hourly capacity	640 pph
Min. rider height	90 cm

Values are for the standard configuration and may vary with options and site conditions. Detailed layout drawings, foundation loads and electrical requirements are provided with the quotation.
