OVERVIEW

The mini Ferris wheel is available in 5, 8, 10 and 12 m heights, with the balloon-shaped gondolas families recognise at once.

A high-capacity ride for its footprint and one of the most requested family units in our range — for parks, shopping-centre plazas and events.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.
