OVERVIEW

The 10 m carousel is the largest of our classic carousel range: a traditional gallop with hand-finished figures and a fully lit canopy.

Designed for family parks, shopping centres and city squares, it combines a strong visual presence with the simple, reliable operation carousels are known for. Figures, colours and lighting are matched to the concept of the site.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.
