≈ 120 m²

Footprint

OVERVIEW

The canoe ride is a themed water ride for children and families: canoes travel a channel against a circulating current, with water-play elements along the route.

A good fit for family zones and water areas; channel layout, number of canoes and theming are planned per site.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.

TECHNICAL SPECIFICATIONS

Footprint	≈ 120 m ²
Length	15 m
Width	8 m
Height	4 m
Seats	20
Min. rider height	80 cm

Values are for the standard configuration and may vary with options and site conditions. Detailed layout drawings, foundation loads and electrical requirements are provided with the quotation.
