Footprint

OVERVIEW

The Elevator is a mini drop tower for children: a gentle lift followed by a short, controlled drop — the classic tower thrill scaled for young riders.

Colourful, compact and easy to operate, it fits children's zones in parks and indoor centres.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.

TECHNICAL SPECIFICATIONS

Footprint	≈ 10 m ²
Length	3.2 m
Width	3.2 m
Height	7 m
Seats	6
Theoretical hourly capacity	120 pph
Min. rider height	90 cm

Values are for the standard configuration and may vary with options and site conditions. Detailed layout drawings, foundation loads and electrical requirements are provided with the quotation.
