Seats

≈ 256 m²

Footprint

OVERVIEW

Break Dance is a spinning platform ride for teenagers: vehicles mounted on rotating arms that turn on a flat, ground-level platform. Compared with Crazy Dance, the arms stay at ground level and do not lift.

With a canopy, lighting and sound package it becomes a lively centrepiece of the park's thrill zone. Colours and theming are specified per project.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.

TECHNICAL SPECIFICATIONS

Footprint	≈ 256 m ²
Length	16 m
Width	16 m
Height	6.5 m
Seats	32
Min. rider height	120 cm

Values are for the standard configuration and may vary with options and site conditions. Detailed layout drawings, foundation loads and electrical requirements are provided with the quotation.
