Footprint

OVERVIEW

Crazy Dance is one of the most successful thrill rides worldwide. Vehicles spin freely on rotating arms; the arms lift as the ride runs, and a full lighting package creates a disco atmosphere that keeps young visitors coming back.

A staple of the thrill zone in parks of every size. Colours, theming and sound programme are specified per project.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.

TECHNICAL SPECIFICATIONS

Footprint	≈ 256 m ²
Length	16 m
Width	16 m
Height	8 m
Seats	32
Theoretical hourly capacity	544 pph
Min. rider height	120 cm
