OVERVIEW

The Robocop 360 XL is the largest ride in the Robocop family and a benchmark for thrill zones. Riders sit facing outward with feet free; the pendulum swings to full height and drops from 30 metres.

The drive and restraint systems are engineered for this programme; colours and theming are specified per project.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.
