Seats

≈ 83 m²

Footprint

OVERVIEW

The Robocop 360 is a motor-driven pendulum: riders sit with feet free while the arm swings through increasing angles, then completes a full 360° rotation at the top before the descent.

One of the most requested thrill rides in our range. Colours and theming per project.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.
