OVERVIEW

Brucomela is the classic caterpillar coaster for children and families and one of the most widely delivered rides in our range, with more than 300 units installed worldwide.

A gentle, compact oval track and a low minimum rider height make it a first coaster for the youngest guests and a reliable staple for parks and shopping-centre play areas.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.

TECHNICAL SPECIFICATIONS

Footprint	≈ 353 m ²
Length	28 m
