Max. speed

OVERVIEW

The Dragon Coaster is a mid-size family coaster: exciting enough for children, comfortable enough for the parents riding with them.

One of the most popular family attractions in parks, it combines a themed dragon train with a compact, high-throughput layout. Track configuration, train theming and colours are specified per project.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.

TECHNICAL SPECIFICATIONS

Footprint	≈ 336 m ²
