TECHNICAL SPECIFICATIONS

Footprint	≈ 416 m ²
Length	33 m
Width	12.6 m
Height	6 m
Track length	160 m
Seats	24
Vehicles / gondolas	6
Theoretical hourly capacity	480 pph
Max. speed	30 km/h
Min. rider height	120 cm

Values are for the standard configuration and may vary with options and site conditions. Detailed layout drawings, foundation loads and electrical requirements are provided with the quotation.

OVERVIEW

The Spinning Coaster runs the same compact track as the Junior Dragon, with one difference: its cars rotate freely as they travel, giving a more dynamic ride on a small footprint.

A strong choice for children and families and for sites that want a coaster with a twist. Train theming and colours per project.

Designed and manufactured with reference to international amusement-ride standards, EN 13814 in particular. Certification and approval are planned per project for the country of installation.
